## SAPPHIRE® Aqua-Sil Hi-Load

Highly resistant silicone grease, with molybdenum disulphide, for long term lubrication

### Product Overview

ROCOL® SAPPHIRE Aqua-Sil Hi-Load is a smooth, grey/black, silicone grease that has been designed for the lubrication of seals, 'O' rings, slides, slow speed bearings and other applications.

SAPPHIRE Aqua-Sil Hi-Load has a high dielectric strength, is resistant to chemicals, oils and gases and can be used as an electrical filling compound.

SAPPHIRE Aqua-Sil Hi-Load has good load carrying and is ideal for long term lubrication at extreme operating temperatures.

**Water Regulations Advisory Scheme – Approved Product – Approval Number: 1704534**

### Features and Benefits

- Excellent wide temperature resistance – ranging from -40°C to +200°C and it can protect up to +220°C for short periods.
- Outstanding resistance to chemicals oils and gases far superior to standard greases.
- Excellent resistance to water, including salt water ensuring components are protected even in submerged conditions.
- SAPPHIRE Aqua-Sil Hi-Load is approved for use in both hot and cold potable (drinking) water.
- Suitable for use as a rubber lubricant for most rubbers (not suitable for silicone rubber).
- Extremely long wet life reducing re-lubrication frequencies and in some cases can be used as a lifetime lubricant.
- High dielectric strength making it ideal for use as an electrical filling compound.

### Directions for Storage and Use

- SAPPHIRE Aqua-Sil Hi-Load can be applied manually, by a silicone grease gun, or by other methods suitable for use with silicone greases containing solid additives.
- For best results the previous lubricant should be removed prior to application.
- DO NOT USE ON SILICONE RUBBER.
- The storage temperature should be controlled between +1°C and +40°C.
- Shelf life is 3 years from date of manufacture.

### Specifications

SAPPHIRE Aqua-Sil Hi-Load is designed for long term, and possibly lifetime, lubrication depending on application.

SAPPHIRE Aqua-Sil Hi-Load is particularly suitable as a rubber assembly grease on seals, 'O' rings, gaskets washers, valves and valve seals in medium to heavy duty applications.

SAPPHIRE Aqua-Sil Hi-Load is ideal for use where a high performance, water and chemical resistant lubricant is required such as Water Authorities, Gas & Plumbing, and most other industries where a multi-purpose water and chemical resistant silicone grease is required.

## SAPPHIRE® Aqua-Sil Hi-Load

Highly resistant silicone grease, with molybdenum disulphide, for long term lubrication

Property	Test Method	Result
Appearance	Visual	Black grease
NLGI No.	IP 50 – ASTM D217	3 / 4
Base Type	N/A	Silicone oil
Base Fluid Viscosity at 40°C	IP71	700cSt
Base Fluid Viscosity at 100°C	IP71	300cSt
Thickener	N/A	Inorganic colloid
Solids	N/A	Molybdenum disulphide
Temperature Range	N/A	-40°C to +200°C (+220°C short periods)
Evaporation Loss - 24 hrs at 100°C	ASTM D 972	<0.5%
Oil Separation - 24 hrs at 100°C	IP 121	<2.5%
Copper Corrosion Test - 24 hrs at 100°C	IP 112 – ASTM D130	No stain
Oxidation Resistance (Pressure Drop)	IP 142	Less than 1 psi
Dielectric Strength	BS 2918:1957	30 kv/mm
Volume Resistivity	BS 903: 1982	5.5 x 10 <sup>11</sup>
DmN Factor	N/A	100,000

Values quoted above are typical and do not constitute a specification.
