

COUPLINGASSIST

PATENTED

Tool for safe and easy trailer coupling

- Prevents damage when coupling a trailer.
- Connecting a trailer yourself has never been so easy!
- When reversing, the rear of your car is protected.
- The HUBONHUB[®] is mounted with four bolts to the coupling.
- Due to its curved shape, the HUBONHUB[®] ensures that the ball of the towbar comes exactly under the coupling.
- The HUBONHUB[®] can remain on the coupling, forming connected no obstacle.
- To prevent theft of the trailer, a padlock can be placed on the HUBONHUB[®] will be confirmed. (Padlock not included).
- Fits on most common couplings:
(delivery including various brackets and with mounting material)

750 – 1200Kg.
1000 – 2000Kg.
2200 – 2800 Kg.
2200 – 3500 Kg.

- Complete set is made of high quality very corrosion Resistant aluminum and finished with Matador red powder coating.

* Tool for safe and easy trailer coupling
 * Due to the curved shape, the HUBONHUB[®] ensures that the ball of the towbar is exactly under the coupling.
 * Fits on most common couplings.

Delivery without padlock
